

MMUN CLIMATE SUMMIT..

An Opportunity to Be Part of the Solution

JUNE 28TH-30TH, 2021

\$195 Early Bird by April 1ST, \$250 after April 1ST

A three day online event bringing together youth from around the world to collaborate on solutions for the current climate crisis. At the Summit, participants will be guided to develop projects to impact their community through seminars with experts and youth activists. The Summit will culminate in a video mandate addressed to the United Nations prior to the UN Climate Change Conference (COP 26).

DAY 1

Participants will look deeply into the global nature of climate change, and identify where they can create impact in their local communities.

INSPIRED TO THINK DEEPLY

Guided by the story of youth activists and their journeys, participants will take their heartbreak and transform it into opportunity.

DAY 2

Participants will workshop their ideas and solutions, brainstorming with peers and experts in a detailed process to uncover where their impact can be most effective.

EMPOWERED BY PEER SUPPORT

Together in a series of virtual interactive groups, the participants will hone their ideas to focus on achievable goals and clear timelines.

DAY 3

Each participant will create their climate pledge for 2021 in a video message; these pledges will merge into a formal mandate to be presented to the United Nations prior to COP 26. Let us show the world that youth is ready to forge the world we need today!

A PLEDGE HEARD AROUND THE WORLD

As participants present their projects to each other, they craft their messages and, when combined, will form a mandate demanding real action at COP 26.
